

Mv Docket No. 04-233 Please do not force the few christian stations off the air with the approval of LPFM stations. there are enough cecular stations out on the air waves, there is no need to effect the community with removal of the only good holesum caring station in our area. K-LOVE is the one station that brings a community together. Builds them up not tear them down as do the secular stations do with their bad words and bad attitudes towards each other.
